## ANIMAZIONE STOP MOTION

*Stop-motion Animation* explores how all the elements of film-making – camera work, design, colour, lighting, editing, music and storytelling – come together in this unique art form. With tips and suggestions to help you get the most out of your films, and **with examples from some of the masters of the craft, Barry Purves shows how to make the most of the movement, characters and stories that typify stop-motion.**

With dozens of beautiful examples from around the world, this new edition includes a project in each chapter, with pointers on finding a story and characters, developing a script and storyboard, constructing puppets and the practicalities of film-making. **These projects combine to lead you through the creation of your first one-minute stop-motion animation.**

*"This is the must-have book for the stop-motion animator who wants to learn what it is to be a professional."* Pike Baker, [www.stopmotionmagazine.com](http://www.stopmotionmagazine.com)

*"I wish I had a book like this when I was starting out, because what Mr Purves writes about is not only a fine introduction to the craft, but also a compilation of the kind of wisdom and insight that one can usually only gain over a very long period of time making films."* Mark Osborne, co-director of Kung Fu Panda, [www.awn.com](http://www.awn.com)

### **Key topics:**

Approaching the story

Costume

Dialogue

Editing

Eyes

Hands
