PAPER ONLY. CREARE E DECORARE CON LA CARTA

An ode to paper

Set your creativity free

Since opening the doors to their studio in 2009, [The Papered Parlour](#) has welcomed over 5000 participants to their creative workshops and public craft events, winning a loyal following of ardent fans.

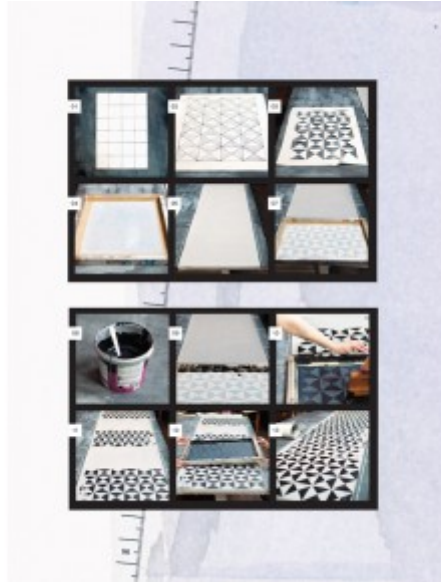

In the first book from The Papered Parlour, founders Claire Heafford and Louise Hall explore one of the most basic of all materials: paper. From artists and designers to writers and craft practitioners, the journey of creativity always begins with a blank sheet.

So print, cut, sketch and fold your way through the fundamentals of art and design as you push paper to its limits. With 20 projects to kick-start your creativity, from block printed wallpaper to handmade flowers, this book encourages you to scatter your sketchbooks with inspiration and take artistic risks. So follow the paper trail and let your creative adventure begin.

Claire Heafford studied at Chelsea College of Art and Goldsmiths College. Pursuing her passion for audience development and creative programming she worked at national museums, galleries and theatres, before co-founding The Papered Parlour with Louise Hall in 2009.

Louise Hall began a career as a freelance photographer in 2004, assisting and leading shoots in various fields including fine art, fashion, theatre and film.
