BOTANICAL STYLE

Inspirational decorating with nature, plants and florals

In her latest book, *Botanical Style*, popular stylist and bestselling author Selina Lake brings her signature romantic vintage style to the **current trend for all things botanical**.

The first chapter, Botanical Inspirations, takes a look at **the ingredients of the look**—antique botanical prints and artworks, flower stalls, potting sheds, and houseplants—and draws upon these sources for **fresh ideas to transform your home into a leafy haven**.

Moving on, Selina explores **five different facets of the botanical look**. **Vintage Botanicals** celebrates the gentle palette and delicate style of floral watercolors and pressed flowers, while **Boho Botanicals** has more of a free-spirited 1970s vibe, with jungly potted plants, flower garlands, and even a decorated teepee. The varied textures and contemporary appeal of **Industrial Botanicals** give it a modern edge, utilizing materials such as polished concrete, rusted metal, and laboratory glass and combining them with peeling paint and vintage science posters on the walls. Next, **Natural Botanicals** is based around antique botanical prints and museum specimen cases for a nostalgic feel while **Tropical Botanicals** features bold leafy prints, spiny cacti, and palm trees for a distinctly glamorous retro flavor.

Throughout the book, Selina's imaginative 'DIY Makes' and insightful 'Style Tips' provide a wealth of inspiring suggestions for how to recreate the textures, tones, and ambience of Botanical Style in your own home.
