### Da Vinci in Detail

#### The paintings of the Renaissance genius

**Leonardo da Vinci** (1452-1519) possessed one of the greatest minds of all time; his importance and influence are inestimable. He was painter, sculptor, architect, engineer, scientist and all-around genius. This handy-format edition focuses on the paintings of this Italian artist. With full-bleed details of Leonardo's masterworks, the book allows the reader to inspect the subtlest facets of his brushstrokes.

We explore **Leonardo's life and work** in ten chapters, drawing upon his letters, contracts, diary entries, and writings. All of his paintings are presented and interpreted in depth, with *The Annunciation* and *The Last Supper* featured on double-spreads. The second half of the book comprises a **catalogue raisonné of Leonardo's paintings**. It covers all his surviving and lost painted works and includes texts describing their states of preservation. Each and every painting that can be justifiably attributed to Leonardo is included here; thanks to new findings and scientific research, this is the first time his definitive painting oeuvre is being published. Together with the volume on Leonardo's *Graphic Work* in our *Bibliotheca universalis* the complete work of Leonardo is brought to the reader.
